

Spring Term Homework – Year 1 and 2

Area of Learning: D and T

Design and make a space helmet.

Design a Fisherman's work outfit.

Area of Learning: Reading

Please read your books daily and you will also have 1 book a week allocated on Bug Club.

Area of Learning: Writing

Write 5 facts about Christopher Columbus.

Write a fact file about Fishing in Hull

Area of Learning: Geography

Take a trip to your local park. Draw a map of the park and include features eg: swings/ponds/slide.

Year 2: include a key to identify key features.

TOPIC:

Why are Christopher Columbus and Neil Armstrong very brave people?

What would Katie Morag find exciting about Hull?

Area of Learning: History

Write about famous people from Hull and why they are famous.

Area of Learning: ICT

Write a postcard from Neil Armstrong following the first moon landing.

Area of Learning: Maths

Yr1: Learn your number bonds to 20.

Learn your 2, 5 and 10 times tables.

Yr2: Continue to learn your 3 times tables.

Become familiar with halves, quarters and thirds.

Learn to tell the time in five minute intervals.

Parent and Carers,

Homework is an important part of the children's education. It is time for children to work on skills they have been learning within school, within a different environment and with your support.

The whole school expectation is:

Reading -

Please encourage your child to read their school reading book everyday for at least 10-15 mins. The supporting adult should sign the reading record, (older children will be expected to write a short comment about the book in their reading record). Please encourage your child to talk about and question what they read.

Every week we will allocate your child a new book on Bug Club.

This is an opportunity to foster a love of reading and will help to maximise progress.

Spellings –

Each class will have 5 'words of the week', these will either be five high frequency words or words selected from the class text being studied in Guided Reading. We would be grateful if you would help your child learn to spell and understand the words. The children will not be tested on these words, but they will be expected to use them in their writing.

Topic homework –

The attached sheet contains homework tasks linked to the class topic for this term, to be completed by 1st April 2019. These are designed as activities to involve the whole family in a creative and fun way to support the children's learning. The activities can be done in any order, as preferred. We suggest at least one task each week.

Maths –

We would appreciate your continued support in helping the children to learn number bonds and/or multiplication tables as appropriate.

We hope you enjoy undertaking these things and look forward to seeing the results. We would appreciate your comments on these activities.

Thank you for your continued support.

Key Stage 1 Team
