

Year 3 Newsletter - Spring 2026

Year 3 have had an excellent Autumn term and have come back to school eager to start the new year with our new units of work!

Our history unit this term is 'Why did the Romans invade and settle in Britain', which we are all really excited to learn about! As scientists, we have started our 'Rocks and Soil' unit. We have explored types of rocks and their properties. In writing, we are using 'Wallace and Gromit' as our stimulus. The children have produced a superb explanation text, whilst applying their Year 3 grammar outcomes. We have continued to be super mathematicians and we have been working on our multiplication and division and will be learning about length and perimeter later on in the term. Again, all children used their prior knowledge to support them. It has been great to see some children continuing to use Times Table Rockstars!

General Information

PE - This term, the children have their PE lessons on a Tuesday afternoon. This will be an outdoor and an indoor session. However, due to the changing weather, PE days may change so please can children bring their PE kits to school and leave them here for the term. Please can we make sure the children are wearing the correct PE kit and suitable shoes.

Home reading - Children need to continue to read at home. This is to help improve their reading stamina and fluency. It should be enjoyable and therefore, if they read books that they have selected independently, or news articles that they have found interesting, then we want to hear about it. Once the children have read their book, they need to return it to school with the reading record for it to be changed.

Thank you for your continued support.

Miss Millett and the Year 3 team
